DualVee Wheels - Shield and Seal Specification Change Notification

In an effort to simplify the selection process, whilst adding improved sealing characteristics, the option to specify standard shielded wheels or sealed (x) wheels individually will be eliminated in favour of a single combined **Seal/Shield** wheel as the standard option. This change has the benefit of offering enhanced sealing with the added benefit of outer shield protection, within the one part number designation.

CURRENT

NEW

Size	Part No	Material	Current Design	New Design	Estimated Date* ²
0	W0	Carbon	Shield	Shield	No Change
	W0X	Carbon	Seal	Seal	No Change
1	W1	Carbon	Shield	Shield	No Change
